Lesson 34: Technology Quiz A

Due Date: November 30, 2024

Instructor: Merrill Kazanjian

Name: _____

Score: / 100

Question 1

/1

What are some reasons mentioned in the text for why it is essential for students to keep up with technology?

- It ensures career growth and advancement in a competitive job market.
- It helps in understanding outdated systems. Understanding outdated systems help professionals get a better understanding of how we arrived at where we are in the present.
- A knowledge of technology guarantees a high salary in any job.
- It eliminates the need for lifelong learning.

Question 2

/1

How does technology influence career opportunities in fields like information technology, engineering, and healthcare?

- By automating processes and introducing new tools and systems that require specialized skills.
- By creating more traditional jobs. When new technologies are created, it always adds jobs to a countries economy.
- By reducing the need for specialized skills.
- By ensuring employees keep their current positions without additional training.

Question 3

/1

What role does lifelong learning play in an individual's professional journey according to the text?

- It is unnecessary if someone is already employed.
- It helps people avoid technological tools.
- It fosters adaptability, resilience, and prepares individuals for a dynamic workforce.
- It focuses only on academic growth.

Name: _____

Question 4

/1

Identify the consequences of failing to keep up with technological advancements as outlined in the article. What impact can this have on employment?

- It leads to missed job opportunities, professional stagnation, and less effective collaboration.
- It ensures professional stagnation but better teamwork. People are resilient in nature and will find jobs regardless of knowledge of technology.
- It reduces the need for updating skills and knowledge.
- It guarantees job security in every field.

Question 5

/1

How can mastering new software or systems contribute to workplace efficiency? Explain using details from the text.

- It complicates work processes and decreases visibility.
- It increases visibility, enhances processes, and supports team success.
- It focuses only on personal benefits, ignoring team success.
- It removes the need for professional development because any good software would take the place of that.

Question 6

/1

What strategies does the text suggest for individuals to stay informed about technological trends and advancements? Choose at least two strategies and explain their importance.

- Utilize online learning platforms and attend workshops and seminars for hands-on experience.
- Avoid mentorships and online learning platforms.
- Ignore professional organizations and forums.
- Only follow outdated methods of learning.

Name: _____

Question 7

/1

In what ways does networking play a role in staying engaged with technology according to the text? Give specific examples of networking opportunities mentioned.

- Networking leads to mentorships, job openings, and engagement in professional communities.
- Networking provides no role in staying engaged in a profession. Networking ensures that all computers are connected to each other and that generally boosts engagement.
- Networking reduces the focus on technological skills.
- Networking eliminates the need for industry events.
