

Challenges	This solution or project will be hard to do because It will take some time to notify the school board to change the food they serve to the kids

IDEA #3

Problem/Issue to Address	A problem at my school is <u>the very strict dress code</u> . This is a problem for (students) / teachers / (community members) because <u>although inappropriate clothing is prohibited, jeans, or colored pants or pj's should not be a prohibition</u>
Possible Solutions/Projects	Our class can fix this problem by making <u>signs and posters</u> or <u>setting appointments with the principle to discuss the issue</u>
Benefits	This solution or project will be good for our school because <u>that way students aren't sent home in the morning just because they were wearing gray pants or blue jeans</u>
Challenges	This solution or project will be hard to do because <u>I know the principle and the school's administrative system is very strict.</u>
